

# Hold on Tight

Magica

Hold On Tight

She is getting closer now  
I can feel it burning harder  
She is breathing fire

I'm giving all I can  
but still it's not enough this time  
we must get higher

She's like the deepest night  
Her wings cover the sky and feels like thunder  
Is crashing through me

A nightmare spawned from hell  
Is at your back and if you wanna live  
You cast the spell... and flee

I'll dive into her soul  
And I'll be stronger, faster, more

Hold on tight don't let me go  
Hold your fear don't let it show  
We'll be gone  
In a moment, you'll see

Hold on tight, don't look behind  
Magic's messing with your mind  
But you are safe  
While you're riding with me
