

My head hurts
My heart hurts too
We all feel it and need to keep it in
Let me take you there
In my mind
Where I used to sleep
Turn me on to firebrand and pain
And it burns and burns inside my brain
Let me know that all this lasts
And that this shall pass
And that I believe in love
A hole in my head
Hole in my heart
We all feel it and need to keep it in
Let me take you there
I believe in love
I believe in love
Hole in my head
Hole in my heart
Hole in my head
Hole in my heart
Hole in my head
Hole in my heart
Hole in my head
Hole in my heart
