

Get It Right

Magnapop

See it looks pretty
Let it go
Go to England
To the show
Make up your mind
Make up your mind
I was at the point the end
I had to catch myself again

Turn the lights out
Turn the lights out
Turn the lights out
Turn the lights out

These are endangered times
Play with their dangerous minds
Too soon to make up your mind
They want you now
You're here for now
Don't turn around
Don't turn

Turn the lights out
Turn the lights out
Turn the lights out
Turn the lights out

Got to get it, get it right
Got to get it, get it right
Got to get it, get it right
Got to get it, get it right

Got to get it, get it right
Got to get it, get it right
Got to get it, get it right
Got to get it, get it right
