

By surprise the fragile fluids
That were, seem to disappear
Behind the eye
In disguise
Or how it ought to
Really ought to be
Like crystal breaking in a spoon
And it's too late
A finger bends another glass
Of fruit

By surprise I finally see
The problems in their eyes
Or how it ought to be
Really ought to be
Behind my eyes a different
Set of keys
A figure A to be
Are you mean
Or do you mean goodbye?

Are you clear,
Do you mean goodbye
Then they say to you ?
Say it here
Say it here

A different time you stayed too soon
Or played before I even know
Say it here
Say it here

A candle shows the lack of what I need
To see to be confused
But not to use a better friend
Than you're his he finds he stayed too soon ?
Or played before I even knew
I guess it's just of business now
I guess

Are you clear
Do you mean goodbye
When I say
Say it here
Say it here

Different time you stayed too soon
Or played before I even knew
Are you clear
Say it here
