

## Merry

## Magnapop

Bad grace finds  
The reader's eyes  
Keep it slow  
Keep it light  
Over by the side  
And it gets too dizzy  
When it feels too hot  
And when it starts to start  
It'll never stop

Space and time  
Creep across the line  
And try to slow down the fires  
Where the fires hide  
But it hits the spot  
When it gets too hot  
And it costs too much  
If it costs a lot

I see your eyes  
Merry  
I swear it stops  
I swear it does

Bad grace finds  
The reader's eyes  
Keep it slow  
Give it light  
Over by the side  
But it gets too dizzy  
When it feels too hot  
And when it starts to start  
It'll never stop

Space and time  
Creep across the line  
And try to slow down the fires  
Where the fires hide  
But it hits the spot  
When it gets too hot  
And it costs too much  
If it costs a lot

I see your eyes  
Merry  
I swear it stops  
I swear it

In the mood for living  
Living seeming  
But not real mood  
What did you say

I see your eyes  
Merry  
I swear it stops  
I swear it does bad grace

Finds the reader's eyes  
Keep it warm  
Give it light  
Over by the side  
But it gets too dizzy  
When it gets too hot  
And when it starts to start  
It'll never stop

Space and time  
Creep across the line  
And try to slow down the fires  
Where the fires hide  
But it hits the spot  
When it gets too hot  
And it costs too much  
If it costs a lot

I see your eyes  
Merry  
I swear it stops  
I swear it

In the mood for living  
Living seeming  
But not real mood  
What did you say

I see your eyes  
Merry  
I swear it stops  
I swear it does
