

Merry

Magnapop

Bad grace finds
The reader's eyes
Keep it slow
Keep it light
Over by the side
And it gets too dizzy
When it feels too hot
And when it starts to start
It'll never stop

Space and time
Creep across the line
And try to slow down the fires
Where the fires hide
But it hits the spot
When it gets too hot
And it costs too much
If it costs a lot

I see your eyes
Merry
I swear it stops
I swear it does

Bad grace finds
The reader's eyes
Keep it slow
Give it light
Over by the side
But it gets too dizzy
When it feels too hot
And when it starts to start
It'll never stop

Space and time
Creep across the line
And try to slow down the fires
Where the fires hide
But it hits the spot
When it gets too hot
And it costs too much
If it costs a lot

I see your eyes
Merry
I swear it stops
I swear it

In the mood for living
Living seeming
But not real mood
What did you say

I see your eyes
Merry
I swear it stops
I swear it does bad grace

Finds the reader's eyes
Keep it warm
Give it light
Over by the side
But it gets too dizzy
When it gets too hot
And when it starts to start
It'll never stop

Space and time
Creep across the line
And try to slow down the fires
Where the fires hide
But it hits the spot
When it gets too hot
And it costs too much
If it costs a lot

I see your eyes
Merry
I swear it stops
I swear it

In the mood for living
Living seeming
But not real mood
What did you say

I see your eyes
Merry
I swear it stops
I swear it does
