

# Dead In Their Tracks

Magnitude 9

Burning with fire, determined desire to rule all with  
their "Iron  
Fist"  
Eyes filled with rage, as they march through the blaze  
To rape unknown lands in their midst

Fighting the wars between them - Impacting innocent  
lives

As it begun, war rages on - To the victor the spoils of  
war  
The fight will be long, we must be strong - See the  
fear in their eyes  
We will fight like we're Gods of war!

They will be dead in their tracks, as we lead the  
attack  
We battle with sweat blood and tears  
The war plans are made, as we plan to engage  
To seek and destroy all that lives

Fighting the wars between them, paying the ultimate  
price

As it begun, war rages on - To the victor the spoils of  
war  
The fight will be long, we must be strong - See the  
fear in their eyes  
We will fight like we're Gods of war

Oh how can we stop this world from hurting?  
Can we search for inner peace  
Like a wheel that keeps on spinning, turning  
In our faith we must believe - Yeah!

As it begun war rages on - To the victor the spoils of  
war  
The fight will be long, we must be strong - See the  
fear in their eyes  
We will fight!

As it begun war rages on - To the victor the spoils of  
war  
The fight will be long, we must be strong  
We must be strong - See the fear in their eyes  
We will fight like we're Gods of war

Gods of war
