

Northstar Blues

Magnolia Electric Co.

Where were the rest of my songs tonight
I only remember the North Star blues
That simple old tune on the stage each night
Marking the time that I lost you
No one should forgive me
I knew what I stood to lose
Am I better off now
just forgetting how
I came to earn the North Star blues
How can I be the only one
Whose life can't live up to the lie
How can I be the only one
Whose heart refuses to try
No one should forgive me
I knew what I stood to lose
Am I better off now
just forgetting how
I came to have the North Star blues
How can I be the only one
Whose life can't live up to the lie
How can I be the only one
Whose heart refused to try
