

Hard Hearted Woman

Magnum

When love walked in
And put a smile on your face
Quickened your step
And put you back on the case
When love walked in
Oh, when love walked in
I swear you never had a chance
When love walked in

When love walked in
You got in out of the rain
Running yourself
Into a full hurricane
When love walked in
Oh, when love walked in
Way down in Never Never Land
When love walked in

She's a hard hearted woman
She's going to make you cry
She's all made up
Got the devil in her eye
She knows what she wants
You'd better do what you can
A hard hearted woman
Is going to make a fool of a man

When love walked in
It made you empty your head
Played with your heart
And put your senses to bed
When love walked in
Oh, when love walked in
Hit you like a runaway train
When love walked in

She's a hard hearted woman
She's going to make you cry
She's all made up
Got the devil in her eye
She knows what she wants
You'd better do what you can
A hard hearted woman
Is going to make a fool of a man

When love walked in
And put a smile on your face
Quickened your step
And put you back on the case
When love walked in
Oh, when love walked in
I swear you never had a chance
When love walked in

She's a hard hearted woman
She's going to make you cry
She's all made up

Got the devil in her eye
She knows what she wants
You'd better do what you can
A hard hearted woman
Is going to make a fool of a man

She's going to make you cry
She's all made up
Got the devil in her eye
She knows what she wants
You'd better do what you can
A hard hearted woman
Is going to make a fool of a man

She's going to make a fool of a man
