

Pray For The Day

Magnum

Pray for the day This city's wall
Concrete for chains Will crumble and fall
Pray for the day
On top of the world Nothing breaks in
Cross after cross They have to dig in
Where to begin

Remember at the border When the blood ran like water
Murdered for escaping While the world looked on shaking

On top of the world Nothing breaks in
Cross after cross They have to dig in
Where to begin
They crowned you with pain And emptied your head
Your rescuers came And left you for dead
Now it has to be said

Remember at the border When the blood ran like water
Murdered for escaping While the world looked on shaking
Remember Yes remember When the blood ran like water

And all across the land The keys to freedom jammed oohh
