

# Stormy Weather

Magnum

The rain beats on my window  
And the moon lights up the dark  
It starts the shadows chasing  
And the dogs out on the run begin to bark

The church bell's striking midnight  
And the lights have all gone down  
The sea's as dark as thunder  
I feel like wanted a man on sacred ground

Now the wind cries out, it's taking you away  
But there's nothing I can do

Passing ships into the night  
We can't stay together  
I won't win but I can fight  
Looks like we're in for stormy weather  
Forever and ever  
Forever and ever

Taillights on the highway  
They disappear from view  
Well, I look but I don't see you coming my way  
Now I've lost it all, it seems I'm losing you

Now the wind cries out, it's taking you away  
But there's nothing I can do

There's a fog down on the beach  
It rolls on forever  
You get further out of reach  
Looks like we're in for stormy weather

Passing ships into the night  
We can't stay together  
I won't win but I can fight  
Looks like we're in for stormy weather  
Stormy weather tonight

There's a fog down on the beach  
It rolls on forever  
Forever and ever and ever and ever and ever  
Looks like we're in for stormy weather
