

# Vigilante

Magnum

Racing in the shadows  
The pounding of the feet  
While the old men get to praying  
And the children try to sleep  
Just another promise  
They don't really care  
'Cause the movement on the border's  
Got the people running scared

Standing on the corner  
Never got things done  
If you leave your front door open  
You'll be the foolish one  
No misunderstanding  
No honour among thieves  
It's a sorry situation  
A gun is all you need

I say  
Go call the vigilante  
He'll turn this place upside down  
Go call the vigilante  
He don't get kicked around

Hold on, there's a new way a-coming  
Looks like it's arriving tonight  
There's no more hiding or running  
There's no more walking on ice

Standing on the corner

Hold on, there's a new way a-coming

There's no more walking on, walking on ice

Hold on, hold on  
Looks like it's arriving tonight  
There's no more hiding or running  
There's no more walking on ice
