

# We All Run

Magnum

I dreamt I saw the cities burning  
At the gates I saw the angels cry  
Now there'll be no turning  
And still I wonder why

I dreamt I felt the hand of reason  
Coming slowly down, it passed me by  
It's just the killing season  
Yeah, it's a foolish lie

We all run  
It's a pity for everyone  
It's all gone  
And there's nothing that can be done  
We all run  
So get ready, the time has come  
We all run  
It's all over, the game is won

And I dreamt I took a thousand footsteps  
To a sea as black and filled with tears  
Now there'll be no goodness  
For a thousand years

I dreamt I crossed a raging river  
That was pure and clear and washed away  
All my troubles wither  
Into another day

We all run  
It's a pity for everyone  
It's all gone  
And there's nothing that can be done  
We all run  
So get ready, the time has come  
We all run  
It's all over, the game is won

The cost is too much  
In nothing we trust  
Everything we touch  
Turns into dust

We all run  
It's a pity for everyone  
It's all gone  
And there's nothing that can be done  
We all run  
So get ready, the time has come  
We all run  
It's all over, the game is won

We all run  
It's a pity for everyone  
It's all gone  
And there's nothing that can be done  
We all run

So get ready, the time has come  
We all run  
It's all over, the game is won
