He's My Light

Mahalia Jackson

He's my light The man of Galilee And I know He's got his arm around me I'm glad to say That his love is ever true Power and might Are his possesions And he'll forgive All my transgressions He died for me Like no other could do

He's my light My guiding light I don't have to worry Day or night By his light He makes my pathway bright All the way Each step of the way

Oh he paid that awful price That I might have A right to the Tree of Life And I shall dwell with him Forever He is my light Oh, my guiding light
