

## He Wants It That Way

Mahalia Jackson

Let it rain, rain, rain  
He wants it that way  
Let it pour, pour pour  
He knows what it's for  
When it lightens and it thunders  
Do you ever stop and wonder  
Why he said he wants it that way

Some may smile  
While others may cry  
All the while  
He's watching on high  
Count your blessings every hour  
God is strong, and He's got power  
Everyday, he wants it that way

He made the moon and stars  
To lighten the darkest of night  
Made the mighty sun and said  
Let there be light  
Never doubt him for one minute  
Read the Good Book  
All that's in it  
And you'll say he wants it that way  
(repeat again)
