

I Woke Up

Maia Hirasawa

I woke up with a hole in my stomach,
Hole in my stomach x2

Maybe it's the dreams,
But I know they've tried to tell me
That I can't go on with a hole in my stomach.
I can travel the world, but still I'll never find someone like
you.
I woke up with a hole,
And how can I go on with that.

I woke up with a hole in my stomach,
Hole in my stomach x2
Maybe it's the stress or the pressure that I'm feeling
But how can I go on with a hole in my stomach.

I can travel the world, but still I'll never find peace like at
home
And I woke up with a hole, and how can I go on with that
(On with that, on with that) how can I go on with that...

I've got a hole in my soul
I can't fill it up if I'm not with my friends at home

I've got a hole in my soul
I can't fill it up if I'm not with my loved one

I've got a hole in my soul
I can't fill it up if I'm not with my friends at home

I've got a hole in my soul
I can't fill it up if I'm not with my loved loved loved... love
d one... loved one... with loved one.
