

Yeah, the realest of the realest niggas
Somebody stop me 'fore I kill these niggas
I go stupid on these silly niggas
Jumping out of those foreigners, that's half a million, nigga
Money, my mission, pursue my wishes
Jealous niggas hating while bitches just blow me kisses
Pussy niggas fronting, I wash 'em like dirty dishes
Inner flash, diamonds around me, just watch me glisten

Young niggas hustling, helicopters is hovering
Rats testifying, my niggas dying, we suffering
Niggas throwing shots at my city, they think we crumbling
I'm ready, though, tell me who want it, let's get to rumbling

If you don't believe me, nigga, just watch
In a Phantom, out the window I'm screaming this for the block
Got 'em in a chokehold, watch 'em, they need to stop
But my city, I'll punish these niggas until they drop
Came up yo killing, vision was only willing
Just a young black male, lost, headed for prison
All them dark nights fishing, 80 was in the kitchen
Now I'm house wife sitting for bitches on television
Running after dough, the Devil chasing my soul
In a white Benz Puma, let shorty swallow my load
All I ever really wanted was treasure for all my niggas
Caught up in a moment, all singles for all these strippers
In an alcohol daze, been rolling for four days
Bury me and G, leave a 40 beside my grave
Nights like these I'm thinking that ST
Feeling just like I'm falling, somebody just catch me
Got a pistol in my car, story behind my scar
All this thug life living and sinning, help me, oh, Lord
Street niggas tell me they love me, I'm just like them
I didn't come here with all these rappers, I'm really nothing l
ike them

Yeah, I'm the leader of the movement
I'm a bring the goons in
We gonna let the goons win
Soon, you pussy niggas doomed then
Pussy niggas doomed then
Word, don't get scared now, nigga
We rolling on you niggas, my nigga
Unstoppable, you heard me
