

# Away From You

Mainstay

Knowing that Your heart's content  
Was the thing that shut their mouths  
Watching as You value  
Someone more than Yourself  
And You taught it well

Send us right away  
Our girl doesn't waste her breath  
She stands like a sage  
She moves but she never moves  
Away from You, away from You

Even as the tears fall  
The smile never leaves  
Wondering the heartaches  
That they will never see  
That is everything

Send us right away  
Our girl doesn't waste her breath  
She stands like a sage  
She moves but she never moves  
Away from You

And You're watching  
Everything around You slowly start to fade  
But You're holding on to love  
Even though Your heart starts to break

Send us right away  
Our girl doesn't waste her breath  
She stands like a sage  
She moves but she never moves  
Away from You, away from You
