

When You Come Down

Mainstay

All of me longs for You, light of the world
Coming soon, breaking through all this pain
Falling down, calling out, Your love surrounding me
For You I wait, in You I wait

I will look to the day when You're coming again
To heal the hearts of men when You come down
Let us look to the sky with redemption in our eyes
Watch the world come alive when You come

Broken hearts will finally see the light of the world
Every tear wiped away through our eyes
Every sin that held us down, they all will disappear
And so I wait, for You I wait

I will look to the day when You're coming again
To heal the hearts of men when You come down
Let us look to the sky with redemption in our eyes
Watch the world come alive when You come down
When You come

All of me longs for You, light of the world

I will look to the day when You're coming again
To heal the hearts of men when You come down
Let us look to the sky with redemption in our eyes
Watch the world come alive when You come down
When You come down, when You come down
