By moonlight we ride ten thousands side by side With swords drawn held high our whips and armor shine Hail to thee our infantry still brave beyond the grave All sworn the eternal vow the time to strike is now

```
Kill Kill ooooh
Kill Kill ooooh
Kill Kill ooooh
```

Gone are the days when freedom shone now blood and steel meet b one

In the light of the battle's wake the sands of time will shake How proud our soldiers stand with mace and chain in hand Sound of charge into glory ride over the top of their vanquishe d pride

```
Victory Victory oooh
Victory Victory oooh
Victory Victory oooh
Victory Victory oooh
```

To the battle we ride we crossed a starlit sky
No space no time we'll catch the wind
Strange losses, men died we crossed a starlit sky
And still no space and time we'll catch the wind

```
Kill Kill ooooh
Kill Kill ooooh
Kill Kill ooooh
```

Sound the charge into glory ride over the top of their vanquish ed pride

By moonlight we ride ten thousands side by side

```
Kill Kill ooooh
Kill Kill ooooh
Kill Kill ooooh
```
