

# Guardians Of The Dragonrail (Orchestral Version)

Majesty

Deep in the forest of wisdom  
High on the mountains we found resort  
Honoured our ancient religion  
The secrets of the world

For centuries the old ones had told of  
The riders of dragons - the sacred ones  
High in the clouds they were calling  
There's magic in their words

Deep in our halls you'll find them  
Our written chronicles  
Knowing that only the chosen  
Can take wind to the stars

Dragon come over sea - we will fly eternally  
Hear the anthem that we sing  
We are children on the wing  
Take me high to the sky - our spirit will prevail  
We are guardians of the dragon grail

Breaking through wind and through fire  
Dragon - let's fly to the crimson shores  
Freedom is all we desire  
A bond without a care

Over mountains and rivers  
Over the land there's a mystic force  
I know the red moon will guide us  
Through the northern air

Deep in our halls you'll find them  
Our written chronicles  
Knowing that only the chosen  
Can take wind to the stars

Dragon come over sea - we will fly eternally  
Hear the anthem that we sing  
We are children on the wing  
Take me high to the sky - our spirit will prevail  
We are guardians of the dragon grail

Times have changed - years gone by  
I see sadness in your eyes  
Mighty dragon fly the earth  
Leave all sorrow from this verse  
Let us rise into night  
Where our dreaming cannot fail  
We are guardians of the dragon grail

Dragon come over sea - we will fly eternally  
Hear the anthem that we sing  
We are children on the wing  
Take me high to the sky - our spirit will prevail  
We are guardians of the dragon grail
