

# Metalliator

## Majesty

The demons are calling, the beast is reborn  
A hybrid of mankind and steel  
The Metalliator, the monster with horns  
Hatred Is all he can feel

When thunder and lightning is pounding and striking  
Dark mist is shading the fields  
He is rising from hell he's the son of the night  
Bloodlust shall pave all his way

Oh hell is calling  
War is here  
Oh the world is falling into the abyss of fear

Metalliator  
Servant of steel, demon's seal  
Metalliator  
Powerful and raw

He's scouring the forest to find his prediction  
He slaughters wherever he is  
His body is iron, his will is to kill  
And all you can hear is a hiss

The prince of damnation is here for invasion  
Start running or be lacerated  
The beast is upon us, there is no escape  
No weapon can harm him at all

Oh hell is calling  
War is here  
Oh the world is falling into the abyss of fear

Metalliator  
Servant of steel, demon's seal  
Metalliator  
Powerful and raw
