

# Rulers Of The World

## Majesty

We came to reign in glory  
Our voices will be heard  
Raise your fist and tell our story  
We are rulers of the world

Holy is the fire, it's burning in our eyes  
We're chosen by a signal from the gods in the sky  
Follow our desire, our empire shall rise  
We conquer by the spirit of the hawks, they will fly

They're calling us the overlords  
The masters of the night

And we came to reign in glory  
Our voices will be heard  
Raise your fist and tell our story - OhOhOhOh  
We are rulers of the world

Yes, metal is our power, forever born to reign  
Soldiers of true force are standing proud side by side  
In darkness and in sunlight, in snowfall and in rain  
We raise our banners high and march for glory and might

They're calling us the overlords  
The masters of the night

And we came to reign in glory  
Our voices will be heard  
Raise your fist and tell our story - OhOhOhOh  
We are rulers of the world

We will conquer all their nations  
By the Metal Law they burn  
We're the chosen generation - Generation Steel  
We are rulers of the world

And we came to reign in glory  
Our voices will be heard  
Raise your fist and tell our story - OhOhOhOh  
We are rulers of the world

We will conquer all their nations  
By the Metal Law they burn  
We're the chosen generation - Generation Steel  
We are rulers of the world

And we came to reign in glory  
Our voices will be heard  
Raise your fist and tell our story - OhOhOhOh  
We are rulers of the world
