

# War For Metal

## Majesty

Siblings of the fire, have you heard the call  
Black wolves are howling our names  
Hawks are rising higher, flying for us all  
The kingdom is covered in flames

Hail to the chosen defenders  
March 'till our kingdom is free

When the giant's calling  
We hear the command  
On a war for metal we are sent  
Let us march for glory with swords in our hand  
War for Metal 'till the end  
On a War for Metal  
Into the battle  
War for Metal 'till the end

We are the sons of metal and steel is in our blood  
MAJESTY is our name, Hail, Hail  
On stage we start the battle, the air is getting hot  
We're keeping it true, never fail

Hail to the chosen defenders  
March 'till our kingdom is free

When the giant's calling  
We hear the command  
On a war for metal we are sent  
Let us march for glory with swords in our hand  
War for Metal 'till the end  
On a War for Metal  
Into the battle  
War for Metal 'till the end

Giants call and demons fall  
When Thunder Riders hail  
The war begins, the war of kings  
The truth will never fail

When the giant's calling  
We hear the command  
On a war for metal we are sent  
Let us march for glory with swords in our hand  
War for Metal 'till the end  
On a War for Metal  
Into the battle  
War for Metal 'till the end
