I feel like a kid I see some monster standing over my crib And they fall in

Somebody knows who I am

Somebody sees me and wants to be my friend

And I know

This is all that I want
I had dreams about you when I was so young
And you're mine

I hear a murderer walk
I hear his footsteps talk through floorboards in my house
And he climbs the stairs

I see this light Coming from behind and growing to enormous size This is magic

As I let my body go
I thought you should know that it's been so fine
I've been fine

I feel like a kid I see some monster standing over my crib And they fall in
