

# Day and Night

Majid Jordan

I know it may feel like you're wasting your time  
But I hope and I pray that you never lose sight

You know what to do  
You know what to do  
You know how to ease my mind  
You know what to do  
Now that I'm with you  
I love you and you love me  
Day and night  
Day and night  
Because I treat your body right  
Your body right  
Your body right  
You got a heart of gold

I know how it feels, when there's nowhere to hide  
But here, as we speak, I feel madness subside

You know what to do  
You know what to do  
You know how to ease my mind  
You know what to do  
Now that I'm with you  
I love you and you love me  
Day and night  
Day and night  
Because I treat your body right  
Your body right  
Your body right  
You got a heart of gold

A heart of gold  
A hand to hold  
A good soul  
That's what I'm looking for  
I want somebody real  
To show me how it feels  
So if it feels good, don't let me down

You know what to do  
You know what to do  
You know how to ease my mind  
You know what to do  
Now that I'm with you  
I love you and you love me  
Day and night  
Day and night  
Because I treat your body right  
Your body right  
Your body right  
You got a heart of gold

Now dance with me  
Now dance with me  
Now dance with me  
Now dance with me

(You got a heart of gold)  
Now dance with me  
D-Day and night  
D-Day and night  
D-Day and night  
D-Day and night  
(You got a heart of gold)  
(You got a heart of gold)  
(You)  
Day, day, day  
Day, day, day and night  
Day, day, day  
Day, day, day and night
