

Girls

Major Lance

Girl (girl)
If you hear me calling

Girl (girl)
No need of acting
Like you don't know
The guy that you hurt so

Hey, girl (girl)
Why do you ignore me

Girl (girl)
With us, was it so sad
Give me the truth
Was I that bad

What made you change
And act so strange
As though you don't know me

I found out this morning
You put me down
You put me down
Got another man in your arms
Don't want me around
Don't want me around

Realized, I know
What you've done
You put a hurt on me
And now, you don't
Even know me

You don't know me
You don't know

Realized, I know
What you've done
You put a hurt on me
And now, you don't
Even know me

You don't know me
You don't know
You don't know me
You don't know
