

Hey Little Girl

Major Lance

Hey, little girl
(Hey, little girl)
I watch you dance
And you look so fine

Hey, little girl
(Hey, little girl)
You do the monkey
Right on time

Please let me have
A chance with you
I like to do the monkey too

And let's get together
Let's get together right now
Let's get together

I need your company
Well, count on me
Ah, little girl
Ah, little girl

The way you move
You just thrill me so
Hey, little girl
(Hey, little girl)
I'm trying hard not
To let myself go

Work out
Everything is all right
The way you move
You just out of sight

And let's get together
Let's get together right now
Let's get together

I need your company
Well, count on me
Ah, little girl
Ah, little girl

Can you do the twist
Ah, little girl
Goes something like this
Ah, little girl
How 'bout the watusi, yeah
Ah, little girl
Work out, we'll hang loosey

Please let me have
A chance with you
I like to do the monkey too

And let's get together

Let's get together right now
Let's get together

I need your company
Well, count on me
Ah, little girl
Ah, little girl

I said you look so fine
Ah, little girl
Well it's monkey time
Ah, little girl
Oh can you do the bird
Oh that's the word
