

Keep Cool

Major Lazer

Late night, wake up
I'm sick, I'm stuck
You're here, so near
Your dream, my fear
Your love, my loss
Your dime, my cost
My fate, your hands
My life, your brand

Living my life in spite of you
This is the best that I can do
Nothing left for me to prove
I give it all to you

Life is what we made it
And we're living like we hate it
I have given all I can
But I can't anymore
Freedom, I can taste it
And the truth, I need to face it
I've always been dedicated
But I can't anymore

Girl you know our love is kinda crazy
And no matter what you're still my lady
Oh oh oh oh oh oh
I know you been unhappy with me lately
How could you find the strength to never hate me
Oh oh oh oh oh oh

When you woke me up and you give me the sweetest wind up
X amount of loving, you give me all the time
Yea, I figured why I was so blind now
Even though your hurt was under surface and me ignored your signs girl

Limbered and teared up, can't leave me like this
Just give me a chance for me to right this
Girl I know you live my love despite this
Cannot let you go, I got to fight for this

Life is what we made it
And we're living like we hate it
I have given all I can
But I can't anymore
Freedom, I can taste it
And the truth, I need to face it
I've always been dedicated
But I can't anymore

It's not right 'cause you're saying this
I wasn't born to serve you
I was born to love

Your house, your rules
Keep calm, keep cool
Tip toe, steer clear
Your mask, I wear

Your wants, my needs
Loaded, good deeds
Your frown, my smile
You're up, I'm down

Living my life in spite of you
This is the best that I can do
Nothing left for me to prove
I give it all to you

Life is what we made it
And we're living like we hate it
I have given all I can
But I can't anymore
Freedom, I can taste it
And the truth, I need to face it
I've always been dedicated
But I can't anymore

Anymore...

Baby, and you get the reason
Baby, and you get the reason
Baby, and you get the reason
Never let it sit so long mandita
