

# You're No Good

Major Lazer

You're no good for me  
But the way you movin at me, oh it might be  
You want a Jamaican one

She say she love me and I'm nice  
Nothing after he return, nothing at the night  
She say it's loving, make this down  
No time at all, she don't wanna line  
She touch me, it all become nice  
She love me, for the rest of her life  
D drop it down, round kiss on mi spine  
Touch and make a sweet song, on top of all things

My uh uh uh uh uh  
My ee ee ee ee ee  
My uh uh uh uh uh (my baby)  
My ee ee ee ee ee

My aa aa aa aa me  
My melodea  
My L L L LSD  
I know you'll come back around  
My aa aa aa aa me  
My melodea  
My L L L LSD  
You want a Jamaican one  
I know you'll come back around

If I had you back  
I'll never let you go another way  
Not for the life of me  
How could you imagine that?  
Well my mistake that send you on your way  
Well nothing I can say  
To you like drops of water  
Don't ask me what went wrong  
Can't turn back the damage I've done  
Can't take em back after I'm gone  
A fool to keep on trying  
Can't make me walk away  
'Cause baby I'm back and as I'm getting strung that you'll be back one day

My aa aa aa aa me  
My melodea  
My L L L LSD  
I know you'll come back around  
My aa aa aa aa me  
My melodea  
My L L L LSD  
You want a Jamaican boy  
I know you'll come back around

Girl you think you love me baby  
And you know so mi love is for my lady  
Deserve no faith to deserve no Slim Shady  
Go Shawty, it's yo birthday  
No if and no maybe

Take and attack it, you're the thing, ordinary  
Me as boyfriend, girl come on and come save me  
Me and you're tinkering me, come with me

Surely inside the long shorty  
Til it wind, pan the flow and wind, pan the flow  
And if you want to get girls that do me  
Come here, lick it more, lick it more  
Mean everything, as I me love you  
So no one kill how I ever want  
Any time, get chug upon the doorway  
Man rest assured, pan the girl next door  
Oh yes I did did

My uh uh uh uh uh  
My melodea  
My ee ee ee ee ee  
I know you'll come back around  
My uh uh uh uh uh  
My melodea  
My ee ee ee ee ee  
I know you'll come back around now

You're no good for me  
But the way you movin at me, oh it might be  
No one ever made me feel so sweet  
Now you got me begging on my knees  
Baby get it for me  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely

It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely

It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely  
It's for your eyes only, living for you solely
