

# Deliver My Enemy

Malevolent Creation

I may lie dormant  
You make first strike  
What I do next  
Will end your life

Deliver My Enemy  
Deliver My Enemy  
Deliver My Enemy  
Deliver My Enemy

Bring your world upon me  
Can't back it up  
Hollow promises  
Respect is done

Deliver My Enemy  
Deliver My Enemy  
Deliver My Enemy  
Deliver My Enemy  
Many foes to fight  
Blood flies through the air  
Into the dead of night  
Open eyes blindly stare

Many foes to fight  
Blood flies through the air  
Into the dead of night  
Open eyes blindly stare

Deliver My Enemy  
Deliver My Enemy  
Deliver My Enemy  
Deliver My Enemy

Deliver my enemy  
Driven before my feet  
Blind eyes never see  
A life that's free

Your belief is false  
Weak minded fool  
Hate me for nothing  
Now I fucking hate you

Your belief is false  
Weak minded fool  
Hate me for nothing  
Now I fucking hate you

Deliver My Enemy  
Deliver My Enemy
