

## Pillage and Burn

Malevolent Creation

Swift invasion, bold and precise  
Minimal resistance from the opposition  
Massive drove of soldiers, interpret certain doom  
The worst is yet to come though;  
They know what they must do

Round them up like cattle, commence  
With the festivities  
Orders must be carried out  
Instructions to incinerate

The innocent and guilty burn as one  
Examples  
For the evil  
They have  
Done

Pillage and burn,  
All that stands  
Will fall in flames  
Pillage and burn, retaliatory act of rage

Conflicting beliefs have caused this rift  
A means to an end will never be seen

So it goes back and forth  
Armies of faith orchestrate the killing  
Torches thrown, all is ablaze  
Nothing remains alive at first light
