

## They Breed

### Malevolent Creation

Born into this world of filth  
A plague in every city  
The real world in not so real  
Filled with scum and lying thieves  
Threats of pain, claiming lives  
When we owe you nothing  
Forced to live in fear forever  
Still they breed

Always wanting, always taking  
What was never yours  
Someday you will feel the hate  
That you gave to others

Filled with diseases  
Still they breed

Hate towards you and your kind  
Bad blood flows forever  
My life is not complete  
Until you've killed each others

Always...  
...gave to others.
