

# I Believe

Mali Music

Thinking bout the world looking at the nation  
Suicide, genocide, homicide  
Three words come to mind  
Times are changing, yeah!  
No more rumors they're wars going on  
Twisted doctors, scientist making clones  
Economy got some backs against the wall  
People dying for no reason at all  
People of God don't even read their Bibles  
There's no faith no trust in the word  
But everybody seems to be quoting scripture  
It's just another word they heard  
Pastors leaving pulpits cause they're tired  
It's all based on how we feel  
Overheard two people speaking the other day  
One said that God's not real but

I'm just one ah them ole people who's got to hold on  
Sometimes I can't see but I still believe  
He's taking care of me, oh oh oh  
I'm just one ah them ole people God's got a hold on  
And I believe, I believe, yeah!  
I believe I believe, yeah!

So I choose to look on the brighter side  
In spite, of all the negativity I'm surrounded by  
No it ain't perfect but that's alright  
Cause His hand is on me  
It's keeping me alive  
So many disappointments  
So much I don't understand  
So much I don't have answers for  
That's what makes me trust You more  
In a world that's always changing  
Everything's rearranging  
But no matter what's going on  
Ima be standing, Ima be holding on  
Your truth, their truth, my truth  
Your god, my God, our view  
All I know is one thing nowadays  
Is we all need hope we all need faith

I'm just one ah them ole people who's got to hold on  
Sometimes I can't see but I still believe  
He's taking care of me, yes He is  
I'm just one ah them ole people God's got a hold on  
Don't You let go of me, Lord please  
I believe, I believe

I'm just one ah them ole people who's got to hold on  
Sometimes I can't see but I still believe  
He's taking care of me, yes He is oh oh oh  
I'm just one ah them ole people God's got a hold on  
I believe I believe  
I believe I believe
