

# No Fun Alone

Mali Music

Stages and flashing lights,  
Music and cameras  
They call it the good life  
But at the end of the day,  
A man's all I am  
Just like you I got needs  
Oh, and I get frustrated  
I get hurt just the same  
But because I got a name  
Happiness mistaken for fame

It gets cold at the top  
Make sure somebody loves ya  
You can feel alone in the spotlight  
Make sure somebody cares for ya  
Always be there for ya  
It's no fun alone

Big toys and private plane  
It's like the world's in your hand  
But while on the road,  
Sometimes you just wanna go home  
To tuck your son in bed  
I get weak like you do  
And my body can get tired too yeah, yeah  
And although I'm living the dream  
I'm a man not a machine  
And I need you to know

It gets cold at the top  
Make sure somebody loves ya  
You can feel alone in the spotlight  
Make sure somebody cares for ya  
Always be there for ya

It gets cold at the top  
Make sure somebody loves ya  
You can feel alone in the spotlight  
Make sure somebody cares for ya  
Always be there for ya  
It's no fun alone

People often try to make it seem  
That their success is individual  
But what's the point in even having dreams  
If you got to celebrate, all alone  
It gets coooold...

It gets cold at the top  
Make sure somebody loves ya  
You can feel alone in the spotlight  
Make sure somebody cares for ya  
Always be there for ya

It gets cold at the top  
Make sure somebody loves ya  
You can feel alone in the spotlight

Make sure somebody cares for ya  
Always be there for ya  
It's no fun alone
