

## Bag

## Malignancy

Plague with diarrheal secretions  
Post-anal drip  
Unable to stop the flow of fecal matter  
Colostomy irrigation necessary  
Colon brought to the surface of the skin  
For intestinal drainage  
Obsolete anus sewn closed  
Remnants of my bowels flood into a bag  
I have a new ass  
Porthole constantly leaking  
Cavity always stinking  
I just long to be normal  
Secrete from an open bunghole  
Overflowing, liquefied feces  
I can't keep it a secret, the evidence stains my clothes  
Colostomy has a hole  
I soiled myself
