

Fried Afterbirth

Malignancy

Fermenting foulness expels from the womb
Ruptured membranes disgorge
Piles of glazed placenta parts
Stink of human innards
Cellular waste, discarded filth

Seasoned the perfection
Feast on this twisted delicacy
Engorging on the nutrient rich fetal sac

Defile yourself with the consumption of fetus backwash
Eating not to survive
Only to fulfill a selfish need for flesh

Fried Afterbirth

Animalistic thirst for infant waste
Cooking the building blocks of life
Cutting into something that helped sustain a life
Part of your wife and child are on a plate
