

Intestinal Sodomy

Malignancy

Ancient organisms lying dormant in nature
Undisturbed, awaiting release
Destruction of tropical forests awaken the virus
Primitive life seeks out a host

Defies the air as it travels
Pollutant is breathed through unclean oxygen
Viral strain begins it's decadence
Unwilling victim harbors this lethal agent

It cripples you, frozen in a state of shock
Hunched over, the pain it stains your face
Your cellular structure is being liquefied
Digestive track spills from the rectum

Come to grips with reality Intestinal sodomy, f**ked from
the inside out
Your ass is torn, black anal sludge flows from the spent
orifice
Disembodied, all your stomach contents are emptied
