

Mortality Weakness

Malignancy

Slender muscle adheres to the frame
Fragile form development
Ligature mends system together
Tender flesh surrounds

A collection of parts distributes your ancestry
Hereditary patterns make up being
Physical perfection absurdity
Apparent weakness reality

Susceptible to nature's onslaught
Defending against us, the bacterium
A body absolute by design
Frailty of the human condition

Defective chromosomes achieve completeness
Nucleus threads pumping illness throughout
Helpless dispersal of cells to encompass
Rapid aging within, engrossed infirmity

A body absolute by design
Physical perfection absurdity
Apparent weakness reality

Premature mind resides in a decrepit shell
Enlarged cranium, bulging eyes, frail body
Ravaged by the pain of the elderly
Frailty of the human condition

Juvenile ages before their time
Wrinkled, weak, exist as the dead
Rapid progression, devitalize
Engrossed infirmity
