

## Motivated By Hunger

### Malignancy

Depletion of food supply  
Over fishing due to greed and population increase  
Apex predator ripped from natural feeding grounds  
Forced into the shallows, hunger motivation  
Survival of the superior creature

Humanity the new prey  
Heightened sensory targets victim  
Distress impulses entice the appetite  
Aggravated aggressor, attack postures

Tail thrusts beast forward  
Lunge forth to claim food surrogate

Unknown horror awaits this casualty  
Body ejected above the surface  
Fears stains your face white  
Serrated teeth separate flesh from bone

Lower half maimed beyond repair  
Ignorant to this new pain  
Endorphins attempt to suppress discomfort  
Shallow breathing, saltwater eats at sinew  
Preying this torture does not continue

Bitten in half, no longer buoyant  
Thrashing arms to keep from drowning  
Face down in the water  
Blood bubbles in the throat  
Surrounded by human debris  
The last thing that is seen  
Is your attacker coming to consume you
