

## Neglected Rejection

## Malignancy

Impoverished inner workings  
Solitary, dejected hollow shell  
Ridiculed by your peers  
Frustrations consuming all waking moments  
Delusions and anxiety riddle the mind

Turning on yourself slicing vulnerable tissue  
Compulsive neurosis dominating you

Emotionally starved, obsessions contrived  
Fabricating a whole new world  
Imprisoned within, hallucinations solidify  
Empty feeling of dread  
Innate psychosis swells past threshold levels  
Consummate your deficient self

Downward spiral engulfed by this deity  
Gauging at your soul, obtuse revelations  
Droning through life over medicated  
Solicit insights to your psyche  
Pharmaceutical junkie, sullen persuasion

Picked apart then left to fend for yourself  
Esoteric fiends swarm to observe progress  
Gnostic practitioners attempt to reconstruct

Emotionally starved, obsessions contrived  
Fabricating a whole new world  
Imprisoned within, hallucinations solidify  
Consummate your deficient self  
Innate psychosis swells past threshold levels  
Empty feeling of dread

Galvanize your willingness for normalcy  
Enthusiastic in supplying dependency

Intertwined you will forever be  
A depository for instability
