

Shine

Malika Ayane

turn your head darling
you might see what you'd what to find
and you will feel glam
turn you head sweetheart
you can have anything you want
it's up to you man
i'll never leave you alone, till they
till they are gone
i'll never leave you alone with them
i'll wait here with by your side
and if it's real
i'll make it shine
and if it's real
just let it shine
i'll never leave you alone, till they
till they are gone
and if it's real
just let it's shine
and if it's real
just let it's shine
and if it's real
just let it's shine
and if it's real
just let it's shine...
