

Beautiful Life

MALIQ & D'Essentials

If we believe in something and we just keep on trying We will survive, we will survive

This is what I named a beautiful life Where we visualize the dreams we had There's no wrong or right when it comes from the heart Just be thankful to God for what we've shared

Let's go back to one night, it was on Wednesday As I remembered it was 15th of May I sang Badu and some Maxwell too We played a repertoire that others don't do Though we got no money and still doing it for free For the sake of Music And Live Instrument Quality Didn't think the crowd would love it or even understand it But they actually sang and danced as long as we kicked it

From bar to bar or a café every Friday or sometimes on weekdays I sing like a bird at night until 2 Never get tired for this is something true It's been our intention to share our experiences For you and I to find our path to self realization Now I'm grateful for all the struggles Cause through it all we become strong fighters

It's a beautiful life Act from the heart when you play your part It's a beautiful life When you survive and everything is alright It's a new beginning of a beautiful life
