

# Come Back Around

Mallory Knox

Wake up, I know these times are testing for you  
When you're lying there lost and a little bit lonely  
I'll be, waiting by your side so maybe  
Dry those eyes they're a little bit hazy

I'll never let you go  
Believe you're beautiful

Don't you know  
(I saw your future falling)  
Down  
(When all the kids are leaving)  
Town  
Come back around

Sunrise, curtain's closed, eyes to the ceiling  
It's hard to breathe when you feel you're sinking  
No love, has let you down when they're leaving  
Left a hole inside where your heart was beating

I'll never let you go  
Believe you're beautiful

Don't you know  
(I saw your future falling)  
Down  
(When all the kids are leaving)  
Town  
Come back around

The time is now  
(To pick yourself up off the)  
Ground  
Come back around

Don't you know  
(I saw your future falling)  
Down  
(When all the kids are leaving)  
Town  
Come back around

The time is now  
To pick yourself up off the ground  
Come back around

(I'll never let you go)  
Come back around
