

Into the Sun

Malrun

Don't you want to feel like you're alive
Never satisfied with less
There's a way of taking control
Step into the extreme
Innovate, grow and mutate
Stimulate your personal faith

Strive, ever striving high
the unrestricted climb
Where nothing can go wrong
Wish me well
Moving on
Into the Sun

Tap the force inherent to the mind
From the muddy waters of
An unbridled imagination
Rise up and seize the day
The ascend, making me whole
The ascend, is taking me home

Strive, ever striving high
the unrestricted climb
Where nothing can go wrong
Wish me well
Moving on
Into the Sun

Don't question why
Don't question how
Focus on when and what if
Don't question why
Don't question how
Heading straight for the Sun

Impervious to the flame
Impervious to the flame

F*ck
