

Strapped while you dance

Malrun

You play tricks on me
Dirty as can be
Like a siren of cacophony
Wrapped around your finger
Wish I wouldn't linger
Mesmerized by your enchanting melody

So, sweet darling,
It was charming, now please release me from these chains
I'm strapped here while you dance
This game ain't healthy anymore

Left me tied for days
Stranded in your maze
What the hell are you trying to achieve
Human black widow
Neither friend nor foe
Unpredictable, somehow I can't perceive

So, sweet darling,
It was charming, now please release me from these chains
I'm strapped here while you dance
This game ain't healthy anymore

Gotta end these power plays
I'm on the floor, I'm in a haze
I've asked a million different ways
Now get these heels off my face!
