

Take It to the Grave

Malrun

Unravel the threads around
This cocoon of comfort
You try to pull the strings
of flesh you found
As I stand my ground

Untied, darkness falls around us
Hide, what I need to keep these walls up
There's no chance in hell
that I'm ever gonna share those words
I'll take it with me to the grave

It's not unlike a ghost town
All the thoughts remain here
They linger in the shadows of my frown
You can't pull me down

Untied, darkness falls around us
Hide, what I need to keep these walls up
There's no chance in hell
that I'm ever gonna share those words
I'll take it all to my grave

On the path we follow
There is a way beneath
On the path we follow
A hidden way indeed

This empty hollow
To keep the dream alive

Untied, darkness falls around us
Hide, what I need to keep these walls up
There's no chance in hell
that I'm ever gonna share those words
It's never gonna see the light
Not see the light
There's no chance in hell
that I'm ever gonna share those words
I'll take it all to my grave
