

## White Rice, Brown Heart

Man Man

I wanna be your your Israeli goggles  
Oh Native Indian Shadow Shadow  
I wanna pee inside of your mouth  
Duck duck duck duck duck man hoof hand  
See you cross the street it makes me stutter  
I lock tom tom with da broiler  
I wanna be your long lost limb  
I cry alone I am so lonely  
You got me feeling like a hang nail  
Go White Face!

I saw you fall into a burning cauldron  
I heard you call for help but I'm not coming  
I saw me fall into a burning oven  
I heard me call for help but you're not coming (not coming!)

You call me ling ling I'll call you panda fist  
The sun burn like burn burn eye burn burn  
I only mess around with girl's who lisp  
La you make me feel like a lustrous seagull  
Dust me off I'm a trophy wife  
Ah these titties are night time things  
Make fuck like dog bark moon make fuck like dog bark moon (woo oo)  
You got me feeling like a hard on  
Go White Face!

I saw you fall into a burning cauldron  
I heard you call for help but I'm not coming  
I saw me fall into a burning oven  
I heard me call for help but you're not coming (not coming!)

Go White Face  
Go White Face  
Go White Face  
Go White Face
