### Man Overboard

I know I cried wolf, I didn't think I had  
Things get darker, and end up sad  
I don't think it's grown old, I don't think its so bad  
Please just tell me - I'm all you have

Tell me something, I'll tell you anything  
You need to know, like I said before  
If you're hurting for something, please just say anything  
You would had known, like I said before

She always said that I walked a crooked line  
Wake me up please, before you go  
I'm boarding up this soul of mine  
Loved you more than you'll ever know

Tell me something, I'll tell you anything  
You need to know, like I said before  
If you're hurting for something, please just say anything  
You would had known, like I said before

(4x):

I'd say anything to make you smile  
I'd say anything to make you stay a little while  
I'd do anything to make you stay forever  
cause forever don't mean nothing without you

Tell me something, I'll tell you anything  
You need to know, like I said before  
If you're hurting for something, please just say anything  
You would had known, like I said before

Tell me something, I'll tell you anything  
I need to know,  
If you're hurting for something, please just say anything  
I need to know, like I said before
