

## Bubble of Life

### MAN WITH A MISSION

Swirl of Frenzy losing your mind gradually  
In the insane vortex you drift through the crowd

Bubble of life you're believing,  
Bubble of life you're growing  
Nothing else you can focus  
Nowhere, nowhere you're going

Let's dance and jump! jump! jump!  
You hit me bump! bump! bump!  
Let's drink and hip! hip! hip!  
Just go and get a grip

This is the no end night  
You hit me bang! bang! bang!  
Consuming rapidly  
And all the night we'll hang

Running so desperately as good as the others  
Scrape your soul again with no cover  
Let it grow on but you know nothing ever comforts what you need  
Its worthless see? Those everything you feed  
The crazy party never ends just like our continuous greed

Let's dance and jump! jump! jump!  
You hit me bump! bump! bump!  
Let's drink and hip! hip! hip!  
Just go and get a grip

Let's party up! up! up!  
As they go down down down  
Drown in the endless night  
With all our fake guilt crowns

Swirl of Frenzy losing your mind gradually  
In the insane vortex you drift through the crowd

Bubble of life you're believing,  
Bubble of life you're growing  
Nothing else you can focus  
Nowhere, nowhere you're going

Running so desperately your trying to death  
for what's the only one thing you need  
Inside you? Outside them? Which side where?  
All the truth you bleed  
It's just like bubbles see? Yeah, everything they plead  
The endless circle whirling on round and round  
we go with our greed
